

Cottolene

"The Natural Shortening"

Cottolene Doughnuts
To one pint of risen bread dough, work in one cup of sugar beaten with two eggs and one teaspoon melted Cottolene. Mix a little nutmeg or cinnamon with one-fourth cup flour add this and enough more flour to make a stiff dough. Roll and cut, and let them rise half an hour before frying in deep, hot Cottolene.

From "HOME HELPS," Mailed free if you write our General Offices, Chicago.

Doughnuts that are doubly good

Doughnuts, when you use Cottolene for shortening, have an appetizing appearance and a lightness and flavor that make them a real delicacy.

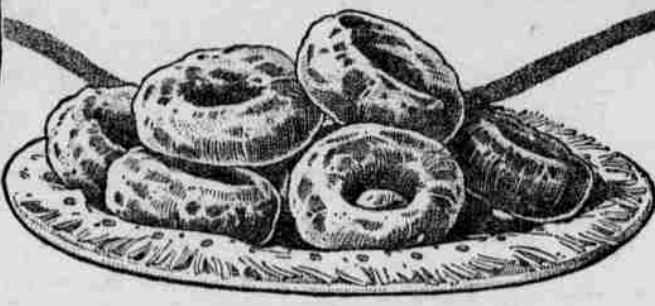

It is the same with biscuits, pastry and all other baking that is done with Cottolene.

Use this pure food product for all shortening, as well as frying. It has no equal.

Ask your grocer for regular supplies of Cottolene, in large or small pails, as you prefer.

THE N. K. FAIRBANK COMPANY

"Cottolene makes good cooking better"

Dallas Local News

(Capital Journal Special Service.)
Dallas, Ore., Oct. 12.—Weldon Black, appeared before Judge H. H. Belt of the Polk county circuit court, Tuesday morning and pleaded not guilty to the indictment brought against him by the recent grand jury charging him with manslaughter. Mr. Black's trial has been set for next Tuesday afternoon at 1:30 o'clock. W. L. Toomey, Jr., will defend him.

Poling to Move to Dallas.
D. V. Poling, of Portland, a well-

known public speaker and singer has rented the D. M. Metzger property on Oak street and will move into it about the 15th. Mr. Poling is a brother of C. C. Poling, who at one time was president of Dallas college. Mr. Poling is connected with the Oregon Life Insurance company and will make Dallas the center of his field.

Sent to Reform School.
Charlie Gossio was again placed in the state reformatory at Salem the first of the week by Deputy Sheriff Will Collins. Young Gossio is charged with stealing a bicycle from Ralph Howe.

Wants to Become Citizen.
Peter Berzel, of Buell, this week entered his application for citizenship papers with the county clerk. Berzel is a native of Germany and came to this country on August 1, 1904.

Recall Movement Gains.
According to reports made by several of the circulators of the recall petitions the movement is gaining in favor since the Independence bridge incident. It is planned to have the petitions all signed up by the latter part of the week and the papers filed with the county clerk so as to have the matter voted on at the general election in November. The papers will be circulated in Dallas this week according to the backers of the movement. One report reaching the city is to the effect that every voter in Douglas precinct signed the recall.

Farmer Fined \$5.
G. H. Russell, of Ferrydale, has been fined \$5 by the city police judge for violation of the traffic ordinance. Mr. Russell drove on the wrong side of the street.

J. C. Hayter was a Capital City business visitor Monday afternoon. District Attorney J. E. Sibley and Deputy Sheriff Tom Hooker were Corvallis business visitors Monday. A. E. Thompson and D. C. Heistand, of Corvallis, were Dallas visitors the first of the week. Mr. Thompson and Mr. Heistand have been conducting a laundry in Corvallis for the past month and recently sold out the business. They were formerly proprietors of the Dallas Steam Laundry.

Norval Gates is spending the week at Oregon City. Sheriff and Mrs. John W. Orr are spending the week on the Salmon river. Mr. and Mrs. Fred Herbert were Portland visitors Monday.

Congressman W. C. Hawley, of Salem, was a Dallas visitor Tuesday afternoon.

Mr. and Mrs. Hood Craven have returned to Dallas after an absence of about two years spent in California.

Miss Rose Ridell, of Salem, is visiting at the home of Dr. and Mrs. A. B. Starbuck while attending the Polk County Teachers' institute.

Mr. and Mrs. G. H. Harder and family have returned from a several months' stay in eastern Oregon cities.

Miss Flora McCallion returned the first of the week from a short business trip to Portland.

trip to Portland.
Fred Crowley, of Rickreall, democratic candidate for school superintendent, was a Dallas visitor this week.

A farewell reception was tendered Rev. G. H. Bennett and family in the parlors of the Methodist church Monday night. Rev. Bennett leaves this day for his new charge at Klamath.

J. E. Bloom, of the Itomizer, was a Capital City business visitor Monday afternoon.

Miss Maude Barnes was a Portland visitor the first of the week.

Robert Stuart, of Berkeley, Cal., was a guest at the home of Mr. and Mrs. A. B. Muir this week.

Mother-Made, Quick Acting Cough Syrup

Should be Kept Handy in Every Home—Easily Prepared and Costs Little

Mothers, you'll never know what you are missing until you make up this inexpensive, quick acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown ups as for children.

This splendid cough syrup is made by pouring 2 1/2 ounces of Pinex (30 cent worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready made for \$2.50—a clear saving of \$2.

The moment it touches the inflamed, cold congested membranes that line the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Honorees and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiacal and is famous the world over for its quick healing effect on the membranes.

Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

HOW CATARRH IS CONTRACTED

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.

STOCK SHARKS ROB

(Continued from page one.)

is said, promoters have continued to sell stock in proposed land banks and to take part of the proceeds for their own services.

One of these concerns failed before it could even have applied for a charter, but it had sold stock to the amount of several hundred thousand dollars to farmers. In many cases the stock has been sold with the understanding that the company is to apply for a charter under the new federal law when there has been no such intention on the part of the promoters.

The board today would not make public the names of the concerns to which it is calling the justice department's attention and refused to give their localities save that by coincidence they have appeared in the belt of states across the middle of the country, comprising some of the most prosperous farming sections.

STATE NEWS

Oregon Journal: Land that cost but \$10 per acre and the first crop gave forth value four to six times the cost of the land is the latest freak in the agricultural world.

Rich bottom lands near Heppner formerly used for grazing, have been turned into wheat this year, according to John Beckett, who has just returned from the harvest fields and is on his way to the University of Oregon. "It is virgin land," said Mr. Beckett. "And due to the late rains, the first wheat crop is averaging between 40 and 50 bushels to the acre. Harvesting is only half over on account of the late season."

Blue Mountain Eagle: C. F. Waters, of Spray, Wheeler county, was in Canyon City Monday and is authority for the statement that he has purchased the Mt. Vernon hot springs from Frank McGarvin. Mr. Waters will move his family to the springs and take possession in about two weeks. He is going to make a lot of substantial improvements. In the first place it is his intention to remodel the brick hotel. He will put in all modern improvements. The bath house will also be made modern. New tubs will be put in and many conveniences added. Mr. Waters will make this place one of the finest resorts in this part of the state.

Lake County Examiner: Buyers for the past week in this section and also the past week in this section and also the Klamath Falls section. Bunting & Smith, of Drews Valley, have sold 75 head to this firm. John Watts and James Edsall, of Bly, have also sold 75 head. Charles Horton, of Yonah Valley, and Johnson Bros., of Sand Hollow, have sold 50 head each. The cattle were shipped from Klamath Falls this morning to California points.

Other sales of cattle reported recently are James Small and Walter Kittredge, of Silver Lake, several hundred to Edson Foulke, of Gallezelle; James Small and Brattain Bros., 400 head to George Swanson.

Heppner Gazette Times: W. O. Minor, Merle Neil and Neal Crawford went up to the head of Ditch creek the first of the week and are now busy turning the water of that creek into the Willow creek basin. This is the result of a movement started through the Heppner Commercial club last spring. Farmers living on Willow creek are much interested in the move, inasmuch as they figure that the additional water will give them ample supply for irrigation during a dry year. Money to put the project through was raised by popular subscription.

North Bend Herald: W. J. Wilsey arrived on Coos Bay from Portland on the through train yesterday evening, and is stopping at the Chandler hotel in Marshfield.

Mr. Wilsey stated in an interview last night that he is here to look over the investments of the interests which he represents, and to consider the possibilities of others. Further than this he makes no statement concerning the nature of his visit to Coos Bay.

Halsey Enterprise: At one of the county fairs last week a farmer was overheard offering another \$100 for a pen of four Cotswold ewes. They were just an average lot of pure bred Cotswolds. The offer was refused. A few years ago \$5 a head would have been a big price for these sheep, and still there is a splendid investment in them at the higher price. Every farmer should have a few head of registered sheep.

Portland Telegram: "Coos county will expend \$600,000 on highway improvements next season," says R. B. Murdoch, county roadmaster, who is in Portland on a business trip. "In addition to the \$362,000 of road bonds voted and sold, tax revenues amounting to about \$240,000 will be available to carry out the plan for a modern road system. It is too late to do much this season, but contracts for the work will be let in February so that full advantage can be taken of every spell of favorable weather next year."

WOMEN KILLED

(Continued from page one.)

necessary to quell rioting. Seventy-five citizen deputies patrolled the city today while the regular patrolmen were on strike duty.

One hundred General Chemical workmen applied to the police for protection today, declaring that they had been offered \$15 a week bonus to return to work and wished police protection so that they might accept.

The Central Railroad of New Jersey posted 15 men armed with Winchester rifles at the Twenty Second street station, which was captured by the strikers yesterday, and prepared to handle traffic at the station, which is in the striking district.

One More Killed.

Bayonne, N. J., Oct. 12.—The second fatality of the riotous strike of Standard Oil company employees occurred this afternoon when Isadore Nalitsky, age 22, a lawyer, was shot and instantly killed when a fusillade of shots were exchanged between several hundred strikers and nearly 250 armed detectives, policemen and special guards.

IMPORTANT TOWN
(Continued from page one.)

Unlike the screaming, whistling of the shells, the passage of these torpedoes is noiseless, but they are visible to the naked eye throughout their entire course. They described beautiful arches above the French line, then darted downward with lightning like rapidity into the German trench. The havoc and consternation were so great that the French soldiers, without hesitation, poked their heads out of the trenches to watch the destruction though the Germans were only 150 feet away.

Air Full of Balloons.
From the depths of this first line trench, 17 French sausage balloons and 30 observation aeroplanes could be observed directly above the French fire.

These were constantly protected during their observation work by a squadron of smaller, faster aviators de chaise. It is to this duty that all the American volunteer aviators on this front are assigned.

During the day only two German aviators appeared, seizing favorable moments to direct their machine guns at a French trench. The German flyers consistently refused to fight the French aviators who were constantly engaged in chasing them back to their own lines. Soldiers in the first line trenches said that nothing gave them greater confidence or a greater feeling of security during a battle than the ability to always look up and see French sausages and aeroplanes hovering protectively above, undisputed masters of the air.

As we were returning to the rear, toward dusk, the Germans evidently were getting ready for the attack made by the French the next day. They launched a terrific barrage fire near Denicourt, though the French made no effort to attack during the night and did not leave their trenches until the following day.

British Take Prisoners
London, Oct. 12.—In five British raids near Messines, Granier woods and Haisnes German prisoners were taken and casualties inflicted on the enemy. General Haig reported today. No important actions occurred on the Somme front during the night.

Poison As A Weapon
Petrograd, Oct. 12.—Poisoned sweets and garlic, infected with cholera bacilli were dropped by enemy flyers who attacked the Rumanian Black sea port of Constanza, it was officially announced here today.

The war office allegation that the central powers have been guilty of a new form of "frightfulness" in warfare, aroused intense indignation in official circles. The official statement did not disclose whether any children ate the infected and poisoned sweets.

Greece About Ready
London, Oct. 12.—The new Greek provisional government headed by Ex-Premier Venizelos and favoring Greece's entrance into the war, began taking shape at about the same hour that French naval authorities took over the ships of the Greek navy.

General Zimbrakakis, a warm supporter of the allied cause, was sworn in as war minister. The ceremony took place at Salonika, where Venizelos has established headquarters.

The Greek ships were taken over early yesterday under the direction of Admiral D'Arge. Du Pourcet, commanding the Anglo-French fleet.

This action was taken by the allies, it was stated, to remove the danger to the allied forces in Greece caused by the activity of the pro-German element.

Accepts All Conditions
Paris, Oct. 12.—Greece has accepted all the conditions imposed by the allies, including disarmament of all forts, the internment of the Greek fleet and the use of the railways and canals by the allies, it was announced here today.

DESPONDENCY
When you feel discouraged and despondent do not give up but take a dose of Chamberlain's Tablets and you are almost certain to feel all right within a day or two. Despondency is very often due to indigestion and biliousness, for which these tablets are especially valuable. Obtainable everywhere.

Consolidation of Leading Certified Accountants

The expansion of the profession of accounting on a larger scale, as indicated by the absorption by Haskins & Sells of San Francisco, of the accounting practice of P. F. Hahn & Company in Los Angeles, is becoming more apparent day by day to business and financial circles. The corporation which does not have the statements certified by some firm of accountants is becoming very rare.

Paralleling the increasing demands for accounting services it is of interest to note that all of the larger universities and colleges in the country are vying with each other in the development of accounting courses which are

ENGINEER RUNS DOWN AND KILLS STRIKER

Forced Machine Over Man Who Refused to Move-- Just Escapes Lynching

Sutter Creek, Cal., Oct. 12.—James H. Kerfoot, an engineer at the central Eureka mine, ran down and killed Obron Nojovich, a former employee of the mine, while attempting to break through a blockade of strikers at the mine last night in his automobile.

Yelling "lynch him," 150 strikers chased Kerfoot into the mine property where he was quickly dispersed. For a time the enraged miners were seeking Kerfoot, the town fire bell was rung and a call was sent to Jackson for volunteers to assist Sheriff George W. Lunt in preserving order. Nearly 200 citizens, armed with shotguns and rifles, hastened to the scene in automobiles and other conveyances and the strikers were quickly dispersed. For a time a pitched battle seemed imminent.

Tension runs high today, but in view of the assistance given the officers last night it is not believed that it will be necessary to call on Governor Johnson for the militia to aid the Amador county authorities.

FOR A MUDDY COMPLEXION
Take Chamberlain's Tablets and adopt a diet of vegetables and cereals. Take outdoor exercise daily and your complexion will be greatly improved within a few months. Try it. Obtainable everywhere.

to fit men for the profession of accountants.

The University of California in its college of commerce has been foremost in the installation of truly practical courses. These are given under the direction of Mr. John F. Forbes, a member of the San Francisco Bar, president of the California Board of Accountancy, and resident partner in San Francisco of Haskins & Sells, the foremost American firm of certified public accountants.

SHOT DOWN THREE

McKinney, Texas, Oct. 12.—R. W. Burrage, a garage owner, shot three men in his place of business this afternoon, probably fatally wounding two. The injured are:

J. W. Ashley, cashier of the Collin County Bank, shot four times, not expected to live. E. R. McTee, farmer, shot in back, not expected to live and Harold Ashley, the cashier's son, shot through the hand.
